The NIACC Criminal Justice curriculum was developed with the assistance of the Iowa Law Enforcement Academy and a local advisory committee of professionals employed in various criminal justice fields. The curriculum prepares students for careers in Criminal Justice in both the public and private sector.

Program graduates may obtain immediate employment with public or private agencies concerned with public safety, crime prevention, security, or the apprehension and rehabilitation of criminals. A person convicted of a crime may have limited job opportunities in some criminal justice careers.

Many program graduates choose to continue their education in the area of Criminal Justice by transferring to a four-year academic institution or university. NIACC's articulation agreements facilitate the transfer of NIACC credit to many institutions.

A person considering employment with a public agency should check to determine the necessity of successfully passing psychological examinations, as well as meeting standards related to physical fitness and eyesight capabilities, as a prerequisite to such employment. The College assumes no responsibility for paying for such examinations.

Upon successful completion of an Associate in Arts Degree and the required courses, the graduate is awarded a NIACC Criminal Justice Certificate.
