Teacher Education

*"Your connection to
education and opportunity"*

Plan Your Future

Forest City High School, in partnership with North Iowa Area Community College, offers the Teacher Academy to provide opportunities for students interested in pursuing the field of education. While taking courses through the Academy, students will earn college credit and high school credit at no cost to them.

THIS ALLOWS THE STUDENTS TO BEGIN THEIR COLLEGE TRANSCRIPTS NOW.

The Academy also allows the students to observe and participate in various classrooms early on in their coursework in order to see how theories learned in college courses are relevant to real-life situations.

Sign up for these college classes to learn, grow, explore, and build for your future.

Teacher Education Courses

Introduction to Teaching

An introductory course in teacher education that gives students a clear view of the skills and knowledge they will need to be successful professionals. The course covers the place of the school in the community, basic philosophy including foundations and the future, the organization and administration of schools, and the nature of the curriculum.

Field Experience and Seminar

The Introduction to Teaching field experience provides purposeful classroom observations for pre-service teachers. Students will reflect on the ways schools function, identify the roles and responsibilities of teachers, and observe student behavior. Evaluation is pass/no pass.

Educational Media & Classroom Computing Techniques

The production and use of instructional media/computer technology and their relationship to educational strategies.

Beginning Web Page Development

This class covers the basics of building a web page. Students will learn basic coding with HTML and explore web development products.

Developmental Psychology

A study of the physical, mental, emotional, and social growth of the person from conception through later adulthood. Class lecture and discussion will reflect on such issues as attachment, play behavior, parenting styles and discipline, education, mate selection, midlife events, and later adulthood experiences.

Introduction to Psychology

Introduction to the scientific study of behavior: a brief history of psychology as a science; influences of heredity and environment, motivation, frustration and conflict, the learning process, intelligence, perception, and mental health.

Composition and Speech I & II

Composition and Speech I focuses on improvement of skills in reading, writing, speaking, and listening. Composition and Speech II emphasizes argumentative writing, persuasive writing and speaking, research methods, and language.

How Much Do Teachers Earn?

IOWA CAREER OUTLOOK

Beginning Teacher Salary \$28,157

Average Teacher Salary \$40,877

FRINGE BENEFITS

Retirement plans
Health care
Sick leave

“Job opportunities for teachers over the next 10 years will vary from good to excellent, depending on the locality, grade level, and subject taught. Most job openings will be attributable to the expected retirement of a large number of teachers.”
