

Articulated Classes

These courses completed at Osage High School (with a B- grade or higher) allow students to earn articulated NIACC credit:

Accounting

Office 2003 & Advanced Office 2003

Anatomy & Physiology

Articulated credit is awarded for career and technical program courses, not four-year transfer courses.

What is NIACC Career Link?

Osage High School (OHS) and NIACC have formed a partnership to offer high school students opportunities to develop career focus and earn college credit while still in high school. Students usually begin the Career Link program during their junior year. During their senior year, students spend a portion of each school day taking college classes.

Career Link combines hands-on technical training with academic courses. Students take courses to meet high school graduation requirements, as well as the requirements for two- and four-year college degrees.

Why consider this program?

- Develop career focus
- Ease transition to college
- Get hands-on training in area of interest
- No cost to student except for tools
- Enter the workforce with marketable skills
- Get a head-start on college and your career

OHS / NIACC Programs

Automotive Service Technology

Automotive Service Technology is a 4-1/2 semester associate in applied science (AAS) degree program. The program is ASE/NATEF Master Certified in all eight instructional areas.

Building Trades

Building Trades is a diploma program designed for individuals interested in a career in residential, commercial or industrial building construction.

Climate Control Technology

Today's Climate Control technician installs, maintains, analyzes, and modifies heating and air conditioning systems.

Tool & Die Technology

The General Machinist program provides in-depth study and hands-on skills in the machine processing of a variety of metals. Tool & Die expands to the study of high-precision industrial dies and plastics industry molds, using CAD and CAM software and CNC machines.

Welding

Welding techniques will be taught in the state-of-the-art NIACC Welding Laboratory. Students will build their skills utilizing new welding equipment.

Health Careers

Students who are interested in the health care and medical fields may take preparatory classes such as Introduction to Health Professions, Medical Terminology, Certified Nurse Aide (CNA), Developmental Psychology, and Introduction to Psychology.

General Business

NIACC's General Business program gives the student the option of obtaining employment upon graduation or transferring to a four-year institution. It is for the student who is interested in business, but does not have a particular area in mind.

Information Technology

Get a headstart in career paths such as Business Technology, Cyber Security, Network Administration, and Management Information Systems.
