

Articulated Classes

These courses, completed at your high school with a B- grade or higher, allow students to earn articulated NIACC credit:

WFHS Accounting articulates for
NIACC Intro to Accounting

WFHS Anatomy & Physiology articulates for
NIACC Body Structure & Function

WFHS Applied Business + Business Law articulate
for NIACC Introduction to Business

WFHS Advanced Computer Applications
articulates for
NIACC Business Computer Applications

WFHS Food I & II articulate for
NIACC Culinary Nutrition

Articulated NIACC credit is awarded for career and technical program courses, not four-year transfer program courses.

West Fork High School

What is NIACC Career Link?

West Fork High School and NIACC have formed a partnership to offer high school students opportunities to develop career focus and earn college credit while still in high school. Students usually begin the Career Link program during their junior year. During their senior year, students spend a portion of each school day taking college classes.

Career Link combines hands-on technical training with academic courses. Students take courses to meet high school graduation requirements, as well as requirements for two- and four-year college degrees.

Why consider this program?

- Develop career focus
- Ease transition to college
- Get hands-on training in area of interest
- Enter the workforce with marketable skills
- Get a head-start on college and your career

There is no cost to the student, except for transportation and, in some cases, for tools.
