How Sweet - the Great American Cookie!

This class requires a little home work. Bring 6-10 cookies, cover them to hide their identity, they'll be served later. This class is about cookies and all the accessories evolved from the humble cookie. They are antiques, dating back to Persia (now Iran) in the 7th Century A.D., a country rich with sugars and spices. The Dutch word "Koekje" meant small cake, is now our word "Cookie." Housewives tested their ovens with small amounts of cake batter, a small spoonful soon became a dozen cookies.

The cookie inspired a place to store them--the cookie jar. Infamous in it-self, anyone or thing that was anybody became immortalized as a cookie jar. We will tell you about some of them and their astounding values. No more round spoons of batter; cookies got fancier---so, the invention of the cookie cutter--we have lots to show you. When all is said and done the humble cookie soothes a crying child. It's the highlight of a kids lunch bucket; satisfies our sweet-tooth; Christmas or any other holiday. A welcomed gift, given or received, their aroma fills a kitchen to say "I'm home!" come join us for cookie desserts and conversation.
