

Registration Information for Fall 2010 NIACC Online Courses

- You have registered for an online Web-based course. In order to complete your registration, **you must email your instructor at least a week before classes start** (*some instructors may not respond until the start date of the course.*)
- As soon as you send an email message to your instructor, you make it easy for your instructor to reply with the course information and with questions about additional information he or she may need from you.
- Let the instructor know the class in which you are registered, and the term in which you are starting (i.e. Fall 2010).
- Give the instructor your **current** email address. Many instructors will require you to use your NIACC email account for the online course(s). In some Web courses, the instructor will be mailing part of the course materials to you; **the instructor will, therefore, need to have your preferred US mail address in addition to your email address.**
- You will not be attending class in person as you would in a traditional class, you will instead be communicating with your instructor via email and will be accessing most of the coursework with your Web browser (**please read additional Technical Requirements at <http://www.niacc.edu/online>**).
- **If your instructor does not receive an email message from you, he or she will report you as having NOT attended the class.** You can be sure that your instructor received your email message when you receive a reply from your instructor. If you do not receive a reply, you should call your instructor to determine why your email did not arrive (1-888-GO NIACC or 641-423-1264).
- All students are assigned a NIACC email account, a computer lab account and for most NIACC online courses an ANGEL eLearning account. Your **username** to log in to all of these is your first initial, middle initial and **entire** last name (either all upper or all lower case)—example Joe D. Smith's User Name is JDSMITH or jdsmith. The **password** is the first character of your first name in UPPER CASE, first character of your last name in lower case, two dollar signs and the last four digits of your Social Security number—example Js\$\$1234.
- If you are an off-campus student, you must have Internet access through your local Internet Service Provider (ISP).
- If you are taking classes on the NIACC campus in Mason City or in Charles City, you can use the Internet, email and ANGEL eLearning in the NIACC computer labs.
- Please check with the NIACC Book Zone to see if a book is required for your class at www.niaccbookzone.com or 641-422-4500.
- If you have any questions, contact the Records Office at 641-422-4376 or 1-888-GO NIACC ext. 4376.
- **If you have technical problems logging in to a course** fill out the support request form at <https://www.niacc.edu/ssl/websupport.htm>

Instructor email addresses are on the back of this page.
