

# A Quick Look @ QuickBooksPro

Intuit's *QuickBooks Pro* is the most commonly used small business financial software. Like all financial software, it is designed to help you save time and get more organized with features that show you exactly where your business stands, enabling you to focus on your business. Since so many north Iowa area companies use *QuickBooks*, Eddie May, CEO of Advantage Business Solutions, NIACC adjunct instructor and certified *QuickBooks* instructor, will use it to show the importance of accurate bookkeeping, what the right financial software can do for your business and how managing your business can be easier with the right reports. You will see how financial software can help:

- Organize your financial information all in one place
- Manage customer, vendor and employee data
- Save money and track every dollar in and out
