

Focus 2 - Review and Next Steps

Complete the Focus 2 self assessment, then follow these steps to process your results:

- 1 Identify three career interests from your Focus 2 results.

Use the occupation overview to complete the chart to fill in important information for each career interest including aspects that

- 2 appeal to you about the job, components of the job that concern you, the potential salary for the state in which you might live, and the major needed for the position.
- 3 Indicate one or two next steps that you will commit to complete within the next month to help explore potential majors and careers.
